What is MVHacks?

MVHacks is a 24-hour high school hackathon run by Mountain View High School students at 42 USA on June 10-11, 2017. A hackathon is an organized event in which students gather to design solutions to problems through technical ingenuity. Teams most commonly work on projects designed to solve social issues, to pilot business ideas, or simply to tinker with new technologies. We want to convince students that anyone can code, and excite students to pursue careers in STEM. They can come to our hackathon to learn to code, to network with like-minded people, explore new technologies, and most of all, have fun.

Who is attending MVHacks?

About 300 students will attend MVHacks at the 42 USA (6600 Dumbarton Circle, Fremont, CA 94555) from the morning of June 10th through the afternoon of June 11th. 24 hours of this time (1PM through 1PM) are dedicated to hacking. Only high school students may compete, and none are charged any fees for attendance. There will be a number of sponsors and mentors from a variety of Bay Area companies present at the event.

Why sponsor MVHacks?

As a high school hackathon, there will be many first time coders at MVHacks. By sponsoring MVHacks, you can make a great first time impression on new programmers and teach them to use your technologies - APIs, hardware, software, etc. Talented high school programmers from Silicon Valley's top schools will also be attending, presenting a valuable opportunity for internship and job recruitment.

What will your money be used for?

With your contribution, we will buy food, materials, prizes, swag, and more to help make this event an awesome experience.

Sponsorship Tiers

	Bronze $1,000	Silver $2,500	Gold $5,000	Partner* > $7,00
